Are you currently a member/involved with other non-profit organizations? If Yes, please list them below:

- No,

What volunteer experience do you have?

- I am volunteering with the Minority Legal Education Resource program that assists minority law students in preparation for the writing component of the bar exam. I am serving as a tutor for the program this summer. I was a board member for our Public interest Law society in law school and participated in many volunteer opportunities/service days and organized several through the organization. (Start of school day of service, MLK day of service, volunteering at Chicago Bulls College Prep)

What contributions would you make as an Associate Board Member for Dreams for Kids?

- I am very committed to educating under-served communities of children. I was a Teach for America corps member in Miami, and education has become my lifetime mission of mine. I think that I bring a fresh and energetic perspective to any task that I am faced with and I am really looking to expand my opportunities outside of the educational law firm that I currently work for, representing school districts. I work very well in group settings and believe that I am a truly collaborative and supportive member of any group or association that I've ever been a part of.

Why are you interested in serving as a member for the Dreams for Kids Associate Board?

- The mission of your organization really spoke to me. The last time I really felt like I was part of a powerful movement that was affecting change was when I served as a teacher for the Teach for America corps. Being able to serve children who deserve the exact same opportunities as their more wealthy counterparts is a mission I want to dedicate my life to. Serving in a leadership role where I could work with like-minded individuals I think is such a powerful experience and the idea of being able to be in a position to affect more systemic level change is really attractive to me.
